

(Additional work)

Preparation of Heritage Interpretation Strategy

Purpose

A variation to the scope of works has been commissioned to prepare a Heritage Interpretation Strategy. This strategy forms part of the community cultural plan for submission as part of the certification of Ingleside as a GreenStar Community.

Scope of work

- Review the precinct's history and heritage places with reference to the proposed layout and land use planning;
- Identify places and locations in the public domain likely to be suitable for interpretation as part of the development of the precinct;
- Consider the local community/future residents as a potential audience/s for interpretation;
- Identify objectives for interpretation; and
- Provide suggestions for potential interpretive options/devices that will connect with identified audience/s.
