

(Additional work)

On Site Effluent Assessment for Subdivision of 3 sub-precincts

Purpose

A study been commissioned to investigate the land capability of land in Wirreanda Valley, Bayview Heights (Walter Road) and North Ingleside (Cicada Glen Road) for potential use of on-site sewerage systems. This investigation includes the preparation of an On-site Sewerage Management Site and Soil Assessment.

Scope of work

- Desktop study to identify assessment sites and existing site assessment conducted for Council in the last five years. Mapping available in ArcView or MapInfo geographic information system (GIS) format;
- Field works preparation, service locating, drill rig, soil sampling and site walkover;
- Laboratory analysis of soil;
- On-site Sewerage Management Site and Soil Assessment report.
