Biocertification Assessment & Strategy

Purpose

The preparation of a Biodiversity Certification Strategy has been commissioned in accordance with the NSW Office of Environment and Heritage Guidelines. The Biodiversity Certification for the precinct is to include scoping biodiversity offset sites and a review of ecological studies related Angus Onion Orchard.

Scope of work

- Landholder meetings and liaison;
- Meetings and discussions with Office of Environment and Heritage (OEH), Department of Planning and Environment (DPE) and/or Pittwater Council;
- Scoping and mapping possible biodiversity offset sites;
- Preparation of Biodiversity Certification Strategy report;
- Project Management;
- Review of ecological studies related to the Angus Onion Orchard.
